

Far Away

You called at night and said it's late
You wanted to talk I thought it's fate
Now all my dreams they will come true
I don't know why I'm waiting all this time for you

Can you hear me now, am I getting trough?
Well, try it anyhow, I hope you do

At first it seemed that you were near
Till I realised it's just your fear (So far away)
You torn my heart, you broke my pride
From the beginning's just a rollercoaster ride
There's nothing felt and it's all lost
Don't know why I'm searching for a cause

Can you hear me now, am I getting trough?
Well, try it anyhow, I hope you do
Can you hear me now, am I getting trough?
Well, try it anyhow, I hope you do
